PROFILE

4th-semester D3 Information Technology student at Institut Teknologi Del with strong expertise in system analysis and design, database design (ERD/CDM/PDM), and backend development. Experienced in leading and coordinating development teams for web and mobile application projects. Skilled in producing system documentation (use case, BPMN) and translating analysis into database structures and backend code. 2nd Place winner at the Mobile Apps Competition, Medan Coding Competition (MCC) 2026, North Sumatra level.

EDUCATION

Aug 2024 – Present

Associate Degree in Information Technology, Del Institute of Technology

Medan, Indonesia

Current GPA: 3.62/4.00

SKILLS

System Analysis

System Analysis, Use Case Diagram, BPMN, Flowchart, Requirements Specification

Database Design

ERD, CDM, PDM, Relational Database Design, MySQL, PostgreSQL

Backend Dev

PHP, Laravel, Python, JavaScript / Node.js, REST API

Frontend

HTML, CSS, Bootstrap (template-based), React

Tools

Figma (redesign), Git/GitHub, draw.io, Microsoft Office, VS Code

Soft Skills

Project Management, Team Coordination, Communication, Analytical Thinking, Documentation

PROJECTS

Jan 2026 - Present

LPPM Institut Teknologi Del Information System

IT Del

Project Manager · System Analyst · Backend Developer · Final Project Semester 4

- Analyzed system requirements and produced complete documentation: BPMN, use case diagrams, ERD, CDM, PDM
- Designed database architecture and all inter-entity relationships
- Developed backend modules for both admin and guest sides
- Led team coordination and ensured deliverables aligned with requirements specification

May 2026

MedFlow — AI-Based Smart Angkot & Traffic Prediction System

UMSU

Team Leader · System Analyst · Medan Coding Competition (MCC) 2026

- Led a team of 4 in a Mobile Apps competition at North Sumatra level, held at UMSU
- Responsible for system analysis, team role distribution, and digital solution planning
- Developed an AI-based mobile app for smart angkot and traffic prediction in Medan City
- Awarded 2nd Place at MCC 2026 Mobile Apps Competition, a student digital innovation competition across North Sumatra

Aug 2025 – Dec 2025

TobaReads — Mobile App

IT Del

Project Manager · System Analyst · Frontend Developer · Final Project Semester 3

- Designed system architecture and coordinated the mobile application development team
- Analyzed user requirements and documented system workflows
- Contributed to the development of the application's user interface

Jan 2025 – Jul 2025

Website Universal English Course (UEC) Laguboti

IT Del

Project Manager · System Analyst · Backend Developer · Final Project Semester 2

- Led the website development project for an English language course institution
- Conducted system requirements analysis and designed database structure
- Contributed to backend development of the website

June 2025

Redesign Website Rumah Kreatif Toba

IT Del

UI/UX Designer · Individual Project

- Redesigned the website interface using Figma
- Analyzed user needs and created new wireframes and prototypes

ORGANIZATIONS & EXPERIENCES

Feb 2026 – Present	Student Executive Board (BEM) — Internal Affairs Department Managed data and information for internal campus activities within the DPDK department	IT Del
August 2025	Matriculation Assistant, Class of 2025 - Taught basic programming and laptop usage to new students - Guided new students in academic activities during the orientation period - Helped freshmen adapt to the learning culture and academic environment at IT Del	IT Del
July 2025	Vice Chairman, Cinta Almamater Program (PCA) 2025 Coordinated all activities and ensured the smooth running of the PCA program	IT Del
August 2025 – July 2026	Student Mentor, Class of 2025 - Supported new students in adapting to dormitory and campus life through orientation activities that fostered discipline, critical thinking, and a sense of belonging to Institut Teknologi Del. - Mentored and guided freshmen from the Class of 2025 throughout the academic year	IT Del

RESEARCH

Present 2026	Analysis and Mapping of Students' Abilities in Number Theory <i>Research Member · Collaborative Research with Faculty</i> with AI Scaffolding Support (ChatGPT) in Terms of Visual Representation and Computational Thinking
Present 2026	Introduction to Coding and Simple Algorithms for Students of SMP Negeri 1 Laguboti <i>Research Member · Funded Community Service Research</i>
Present 2026	Empowering Lake Toba Communities Through Computational Thinking: A 2026 Initiative <i>Research Member · Funded Research Project</i>

AWARDS & ACHIEVEMENTS

May 2026	2nd Place, Mobile Apps Competition — Medan Coding Competition (MCC) 2026
September 2025	Bebbras Challenge 2025 Member — Recognized by Campus & Faculty
